

# Carlos Huerta-Enciso

Houston, TX | [carloshuerta.enciso@gmail.com](mailto:carloshuerta.enciso@gmail.com) | US Citizen

## Objective

Entered the workforce as a Computer Science Associate; after trying to start my own business, I'd like to now apply my skills to the corporate world. Experience in a diverse set of programming languages. Unique skills include fast-paced learner, initiative, efficient communicator, and adaptable to new situations.

## EDUCATION

**University of Houston-Downtown**, Houston Texas, *Bachelor of Science in Computer Science*, December 2022

Honors: *Cum Laude* (GPA: 3.12)

## WORK EXPERIENCE

- **Business Owner**, Houston, TX. November 23, 2022 - Present  
Personal computer science entrepreneurial opportunities.
- **University of Houston System**, Houston, TX. July 6, 2022 - August 14, 2022  
*Gator Crew Member*  
Worked with the University of Houston-Downtown orientation program, where I was able to present an educational and enjoyable experience for incoming freshmen students to the university. I led campus tours, answered questions, and participated in activities to groups of 20-30 students every week throughout the summer period.
- **Baker Ripley - Harbach**, Houston, TX. June 3, 2021 - July 28, 2021  
*Summer Intern*  
Taught and supervised both a sports class and videography of a class of 24 children attending the summer program at Baker Ripley Harbach campus, while also doing office management assignments, such as creating flyers and answering the phone.
- **Project GRAD Houston**, Houston TX. June 6, 2020 - August 13, 2020  
*Summer Intern*  
Helped with calling campaigns about the organization to high school students and parents, creating social media posts to promote the organization's summer events which in turn had great turnout, especially in the college readiness workshops, and entering data into *Salesforce* for new and current members.
- **Houston Community College**, Houston, TX. June 3, 2017 – August 17, 2017  
*Summer Networking Intern*  
Tasked for a networking development project which increased and strategically placed internet access to two new Houston Community College campuses for students.

## TECHNICAL SKILLS

**Programming:** Python, HTML, CSS, javascript, Git.

**IDE:** Microsoft Visual Studio, Android Studio, Anaconda, Github.

**Office Tools:** Microsoft Office Suite (Word, PowerPoint, Excel), Google Docs, Google Drive

## PROJECTS

**Personal website**, Houston, TX, October 3, 2022

*Lead Developer*

- Building a personal portfolio website, showcasing my achievements and projects such as my podcast and blog. I was able to teach myself HTML, CSS, and Javascript to create a website that was tailored to my personality.

**CLOSAR**, Houston, TX, August 2, 2022

Developer & Team leader

- In a team of four, I was a part of creating an application that would help educate people in understanding the importance of recycling their old and used devices (e-waste), by developing an app that can help monitor their device's general performance through various tests. From these tests users are able to know when it's time to upgrade or get a slightly used phone by using our in-house resale marketplace that has verified and tested used devices to be available for sale.

**UHD Food Market website**, Houston, TX, November 11, 2021

Developer & Team leader

- Leading a team of 5, I was a part of creating a website for the University of Houston-Downtown's Food Market. This website helps a program that gives students free access to food. We added information about the program, how to apply, and schedule an appointment. This is to help the food market's 60-100 daily visitors, and to help give the food market publicity to all students on campus.
