TECHNICAL SKILLS

Programming: Python, HTML, CSS, javascript, Git,

IDE: Microsoft Visual Studio, Android Studio, Anaconda, Github.

Office Tools: Microsoft Office Suite (Word, PowerPoint, Excel), Google Docs, Google Drive

EDUCATION

University of Houston-Downtown, Houston Texas, Honors: *Cum Laude* (GPA: 3.12)

Bachelor of Science in Computer Science, December 2022

EMPLOYMENT

- **Houston Community College**, Houston, TX.

Summer Networking Intern June 2017 – August 2017 • Tasked for a networking development project which increased and strategically placed internet access to two new HCC campuses for students.

- **Project GRAD Houston**, Houston, TX.

Summer Intern June 2020 – August 2020 • Helped with calling campaigns about the organization to high school students and parents, creating social media posts to promote the organization's summer events which in turn had great turnout, especially in the college readiness workshops, and entering data into *Salesforce* for new and current members.

- **Baker Ripley - Harbach**

Summer Intern June 2021 - July 2021 • Taught and supervised both a sports class and videography of a class of 24 children attending the summer program at *Baker Ripley Harbach* campus, while also doing office management assignments, such as creating flyers and answering the phone.

PROJECTS

Personal website, Houston, TX

Lead Developer

- Building a personal portfolio website, showcasing my achievements and projects such as my podcast and blog. I was able to teach myself HTML, CSS, and Javascript to create a website that was tailored to my personality.

CLOSR, Houston, TX

Developer & Team leader

- In a team of four, I was a part of creating an application that would help educate people in understanding the importance of recycling their old and used devices (e-waste), by developing an app that can help monitor their device's general performance through various tests. From these tests users are able to know when it's time to upgrade or get a slightly used phone by using our in-house resale marketplace that has verified and tested used devices to be available for sale.

UHD Food Market website, Houston, TX

Developer & Team leader

- Leading a team of 5, I was a part of creating a website for the University of Houston-Downtown's Food Market. This website helps a program that gives students free access to food. We added information about the program, how to apply, and schedule an appointment. This is to help the food market's 60-100 daily visitors, and to help give the food market publicity to all students on campus.

LEADERSHIP

Campus Activities Board, UHD, Houston, TX (January 2020 - August 2021)

President

- Identified and implemented a solution to organizational challenges and communication bottle-neck through creating an executive team of 7 which allowed for growth and increased morale. Communicated with fellow student organizations, the student body, and led a membership of over 50 people, via group chats and social media.

COMMUNITY ENGAGEMENT UHD Food Pantry (June 2019 – March 2020), Community Scholars program (June 2020-Present)
